The current Evite program needs to be updated as emails on the invite list may no longer be current. Several email addresses for same families are on the list and some unnecessarily. Some past members may still be on the list. Will be updated. A new feature the Evite program offers is using cell phone numbers to text invitations, in addition to using email. If club members are willing to include their cell phone numbers in the Evite system, we hope to reach members quicker with texting vs email. Email might not get opened and read as often as text messaging does.

There was discussion of the GPFBC website. The NEWS tab has not been updated for 5 years, including pictures. To attract new membership, the site needs updating and consistent maintenance. Ideas discussed. Also discussed- ways to generate new photos from member activities.
